The diagram consists of seven horizontal black lines of different lengths, arranged in a descending staircase pattern. The lines are positioned at regular vertical intervals. From top to bottom, the lines are: a long line starting at the left margin; a medium-long line shifted right; a medium line shifted further right; a medium-short line shifted even further right; a short line shifted significantly right; a very short line shifted almost to the right margin; and a single short line at the bottom, shifted almost to the right margin. This visual representation likely corresponds to the 'Steps' mentioned in the text above.
